bayad pay

BayadPay is a Digital Finance Solution that is designed to cater for different industry applications through real time digital financial transactions available anytime, auditable, and with simplified workflow.

It can let you shop, send money, make payments, cash-in and more just with your mobile phones or desktop- all in the safety of your home.

BayadPay is now available in Google Play for Android and soon to be launched in APP Store for the IOS platform, where clients will be able to download them for free.

It is safe and secure mobile wallet that connects to your mobile number or email address, making it available anytime, anywhere.
