How **Basketo** helps crypto investors

BASKETO PORTFOLIO CREATATION

User can put a many tokens into a unique NFT known as a Basketo portfolio. At the end of the creation process, the user receives an NFT that represents all the user's holdings.

EASE OF ASSET MANAGEMENT

Each NFT issued on basketo is then backed by the underlying assets and their real market value. Even after a portfolio is created, its holder can update it at any time they want.

BETTER PLATFORM FOR INVEST & EARN

Allows users to replicate other users portfolios. The creator of the initial portfolio earns royalties. The more people copy your portfolio, the more royalties you earn and the higher the value your NFT gets.
