

ALMAGUA DAO 2021

ALMAGUA

CARDANO FOUND6 2021

fundacionalmagua@gmail.com

ALMAGUA has been established as an organization oriented towards sustainable development of diverse communities within the framework of the Sustainable Development Goals (SDGs), through projects that help mitigate gas emissions and empower people economically in favor of social, sustainable projects and at the same time guarantee an economy worthy of those who live in marginality and poverty, especially those who Women and children.

GENERAL PROBLEM

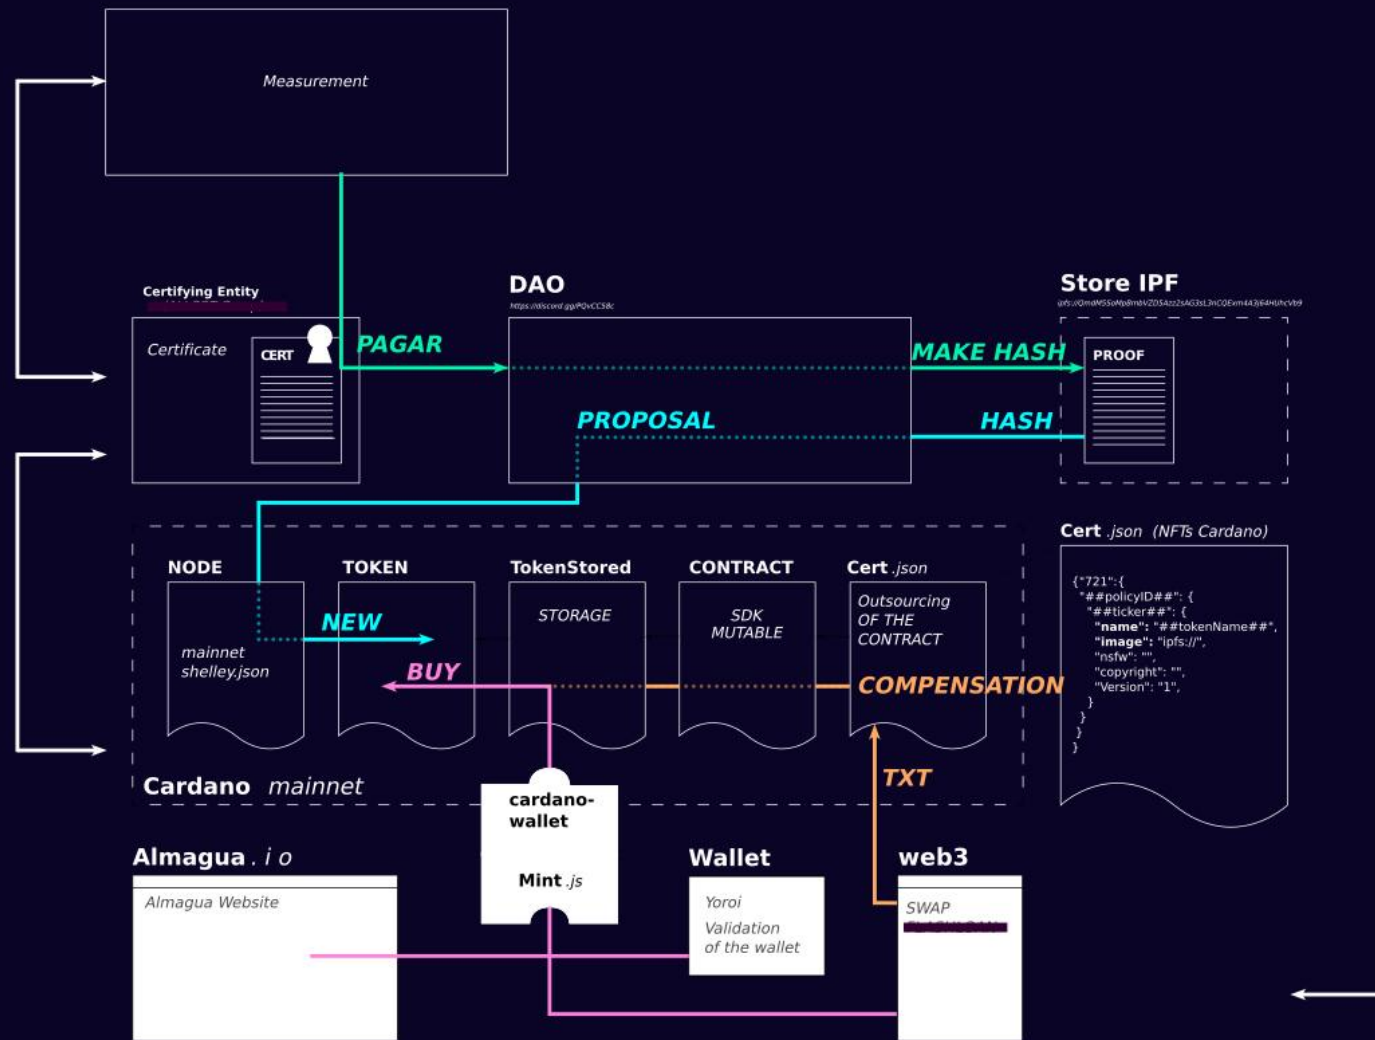

Social marginalization and global warming are closely related to the technological field, so it is essential to create strategies that urgently address this humanitarian and environmental alert.

Globally, emissions reached a record 33,143 million tons of CO₂ in 2018, in Colombia they reached 74,954 kilotonnes two years ago. The government's goal is to try to reduce greenhouse gas emissions by up to 20% by 2030.

In energy and industrial systems, the options considered viable for adaptation to global warming of 1.5 ° C are water management and cooling strategies, but these are not sufficient strategies.

SOLUTION

A DAO will be implemented in the cardano mainnet with democratic voting power for the creation of new tokens certified as carbon neutral credits in the NFTs format. In this Almagua process, the community and the volunteers will work together in favor of the native communities and the environment, with Staking compensation through the planting of trees with an absorption capacity of 30 Kg per year. Part of the incentives generated from Staking will be destined to social and environmental projects of the Almagua foundation.

ACTOR MAP

INTEREST GROUPS

they are government entities, institutions, companies that share the same interest of the foundation to mitigate greenhouse gas effects through acquisition of carbon neutral credits in NFT certificate.

BENEFICIARIES

The beneficiaries will be rural communities from Colombia, Latin America and / or the world and from the Amazon; by developing social and environmental projects

COMMUNITY

The community will delegate its ada to the pool of almagua, for each participant in the pool compensation will be made with a tree in the Amazon and rural areas.

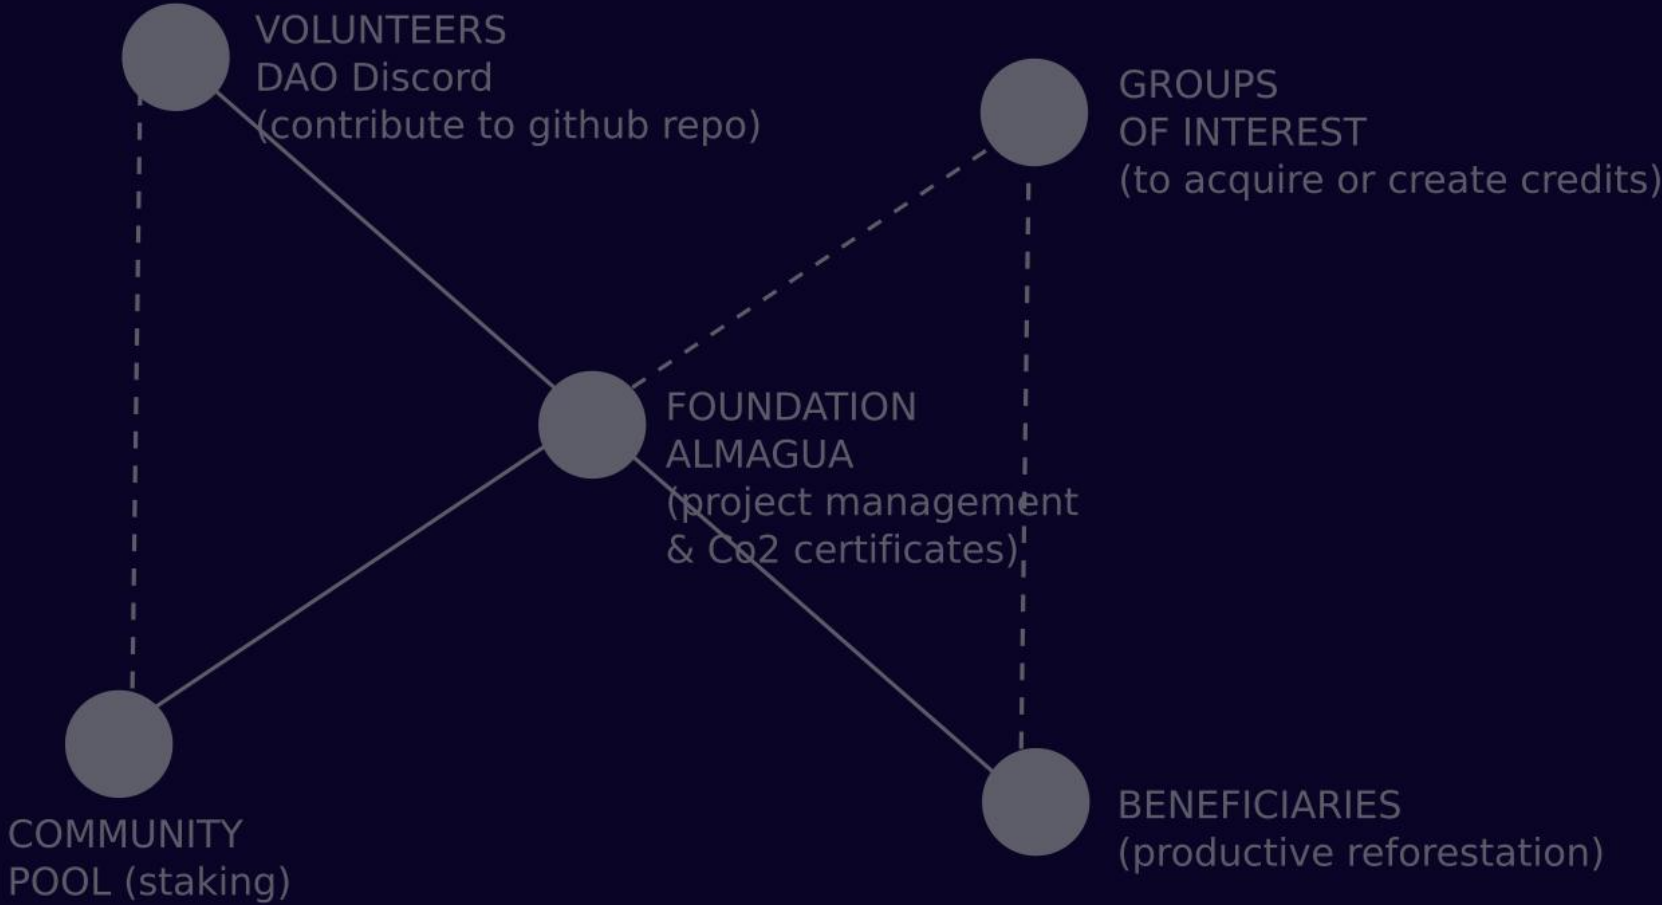

VOLUNTEERS

volunteers can participate in the validation of Almagua certificates and in the contribution for the creation of new contracts in the Github repository for the DAO.

FOUNDATION

Be entrusted to delegate the incentives obtained from the pool to social, environmental and to carbon neutral certification through a certified entity.

ACTOR MAP

To make possible the sustainability of the pool, Almagua will focus its efforts on carrying out educational campaigns of cardano in favor of environmental initiatives, in social networks, educational institutions, universities and interest groups in favor of the mitigation of the carbon footprint, of In this way, people will be able to have much more knowledge of the power of cardano and will understand all the correct process from the creation of the personal wallet, the acquisition of the adas, the pools, the proof of stake philosophy and transfer processes to their personal wallet. to do the staking process.

The participation in the pool is 5%
500 deposit days for pool registration on the mainnet
50 ADAs to pay any transaction fee
Two 16 RAM servers on Amazon Aws
1 million adas for the epochs

Marketing in social networks focused on an audience of 1,000 to reach 10% of users with adas who are willing to delegate to the Staking of Almagua.

Free Press support and education campaigns in institutions.
