Prevention and Education & the KPI dilemma

Basis of valuaton in IT

- Projects producing Dapps
- Clear MVP's & KPI's - Short & Mid term Result visable

Catalyst

- Growth of the ecosystem in total
- Unintentional effect : IT standard => basis of comparison
- Similar is demanded of all type of projects

Lower CA rating & Voting results

- Prevention / Education / mass adoption
- First content, then seeing result in long term
- **ADVANTAGE : there whenever mass adoption of Cardano booms**
